

JSPS Core-to-Core Program (A. Advanced Research Networks) Organic Electronics of Highly-Correlated Molecular Systems

“UK-Japan Joint Seminar on the Devices of Molecular Electronic Materials”

12th Nov. 2015, Tokyo University of Agriculture and Technology, Japan

Program

12th Nov (Thurs.)

9:50-10:00 Opening remark
 (Prof. Yoko Tatewaki,
 Tokyo University of Agriculture and Technology)

Chairperson: Yoko TATEWAKI

10:00-11:00 Prof. Neil Robertson (University of Edinburgh)
 “New materials for Hybrid Photovoltaics”

11:00-11:15 Prof. Sadafumi Nishihara (Hiroshima University)
 “Electrical Properties of Preyssler Type Polyoxometalate”

11:15-11:30 Prof. Ryo Tsunashima (Yamaguchi University)
 “Polyoxometalate; a Molecular Nanostructure for Molecular
 Electronics”

11:30-12:00 Prof. Takayoshi Nakamura (Hokkaido University)
 “Molecular Rotation in the Crystalline State”

12:00-12:10 Concluding remark

12:30-14:00 Lunch
