

Presentations at ICMM2014

	Name	Affiliation of speaker	Title
Invited Talk	*Kunio Awaga	Nagoya University	Molecular magnetism and organic electronics under solid-state electrochemistry
Poster Presentation	*M.M.Matsusita, Yudai Ishii, Kunio Awaga	Nagoya University	Electronic structures and magnetic properties of symmetric indole trimers carrying nitronyl nitroxides
Poster Presentation	*Y. Shuku, Rie Suizu, Kunio Awaga	Nagoya University	Crystal structures and physical properties of radical anion ligands annulated with a thiadiazole dioxide moiety
Poster Presentation	*T.Yamada, Kantaro Morita, Hirofumi Yoshikawa, Kunio Awaga	Nagoya University	Solid-state electrochemical reduction process of magnetite in Li battery: in-situ magnetic measurements toward electrochemical magnets at room temperature
Poster Presentation	*Jun Xiong, Daigoro Endo, Kazuya Kubo, Shin-Ichiro Noro, Takayoshi Nakamura	Hokkaido University	Mixed-valence $[S_2Mo_8O_{26}]_n$ ($n = 4, 5, 6$) and $[Ln(Mo_8O_{26})_2]_5$ ($Ln = Gd, Tb, Dy, Ho, Er$), as magnetic counter anions for supramolecular rotators.
Poster Presentation	Rie Suizu, Kenta Morioka, Kunio Awaga, *Kazuyuki Sakamoto	Chiba University	Electronic structures and molecular arrangement of cyclic thiazyl biradical on semiconductor and metal substrates
Poster Presentation	*Rie Suizu, Akito Iwasaki, Yoshiaki Shuku, Kunio Awaga	Chiba University	Unusual phase transition in a cyclic thiazyl biradical: separate progress of dimerization in stacking chains
